June 4th, 2020 - battle damage isn't something I've played around with too much but I've heard that the secret to making realistic bullet holes is to thin the plastic. This simulates the thickness of a sheet of aluminium seen on a real aircraft. Use either a motor tool or sandpaper to thin the plastic right down'

'modelling in blender airplane part 1 8 steps

June 1st, 2020 - in this instructable I will demonstrate the various steps involved in modelling and texturing in Blender as exemplified by an airplane fuselage. This guide is intended to help people up the relatively steep learning curve that is modelling in Blender. Blender is a pretty capable open source 3D modelling, animation and game creation program. At first it seems complicated but the trick is to"
