ultrasonography from the emergency
March 21st, 2020 - The advent of

portable devices in the early 80s has brought ultrasonography to the patient's bedside. Currently referred to as 'point of care ultrasonography' POCUS it has become an essential tool for clinicians. Initially developed in the emergency and critical care settings POCUS has gained increasing importance in internal medicine wards in the last decade with both its growing ~~'iron-uses~~

FIRST STORY A shoemaker by no
fault of his own had been so poor
that at last he had nothing left
but leather for one pair of shoes
So in the evening he cut out the
shoes which he wished to begin to
make the next morning and as he
had a good conscience he lay down
quietly in his bed mended himself
to God and fell asleep'
