**'moment map**

**May 20th, 2020 - in mathematics  
specifically in symplectic geometry the  
momentum map or moment map is a  
tool associated with a hamiltonian  
action of a lie group on a symplectic  
manifold used to construct conserved  
quantities for the action the momentum  
map generalizes the classical notions of  
linear and angular momentum it is an  
essential ingredient in various  
constructions of symplectic manifolds'**
